

POWER GRADE (S.F)

We are a manufacturer of reclaimed rubber in Super Fine Grade Power
Reclaimed rubber has a capacity to replace virgin (raw) rubber upto 30-60% and subsequently lower downs the product cost. We are proud to introduce Oil & Chemical free reclaim rubber.

POWER RECLAIM RUBBER SUPERFINE CHEMICAL PROPERTIES

ASH CONTENTS	%	20 +/- 2
ACETONE EXTRACT	%	14 +/- 2
CARBON BLACK	%	28 +/- 2
RUBBER CONTENTS	%	55 +/- 5

PHYSICAL PROPERTIES

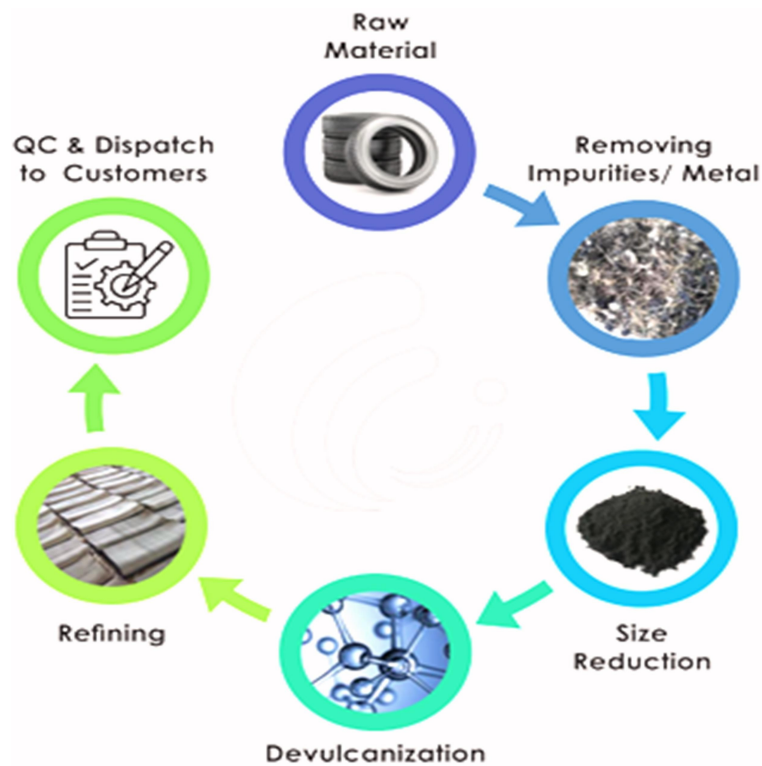

HARDNESS (SHORE A)	55 +/- 5
TENSILE STRENGTH (KG/CM)	45 min
ELONGATION @ BREAK %	250 min
MOONEY VISCOSITY	42-50

ADVANTAGE

- Faster mixer cycle.
- Improved die swell.
- Reduction in consumption of electric power.
- Practically no reduction in hot air ageing properties.

APPLICATION

- Bicycle tyres.
- Footwear sole.
- Conveyer and industrial belts.
 - Q tyre flap.
- Rubber sheets.
- Battery containers.
 - Car matting.
- Moulded goods.
